

**Title of Research:** Individual differences in the detection of human- and AI-generated information

**Investigators:** Dr. Jason Chein, Department of Psychology, Temple University

**Protocol Number:** 32182

**Funding Source:** No external sponsor

***Why am I being invited to take part in this research?***

We invite you to take part in this research study because you are a student on SONA, a user who has completed Google or Zoom forms which we have provided for participants, or a respondent on Prolific, Amazon's Mechanical Turk (MTurk), or Qualtrics,

***What should I know about this research?***

- This research will be explained to you.
- Taking part in this research is voluntary. Whether you participate in this research is up to you.
- You can choose not to participate in this research.
- You can choose to participate now and change your mind later
- Your decision will not be held against you.
- You can ask all the questions you want before you decide.

***Who can answer my questions about this research?***

If you have questions, concerns, or complaints, or think this research has hurt you or made you sick, please talk to the research team at:

[cablab@temple.edu](mailto:cablab@temple.edu)

732-710-2147

805 Weiss Hall

1701 N. 13<sup>th</sup> Street

Philadelphia, Pennsylvania 19122

This research is being overseen by an Institutional Review Board ("IRB"). An IRB is a group of people who perform independent reviews of research studies. You may talk to them at (215) 707-3390 or [irb@temple.edu](mailto:irb@temple.edu) if:

- You have questions, concerns, or complaints that are not being answered by the research team.
- You are not getting answers from the research team.
- You cannot reach the research team.
- You want to talk to someone else about the research.
- You have questions about your rights as a research subject.

***Why is this research being done?***

The purpose of this research is to learn about how humans evaluate information that comes from humans and information that comes from artificial intelligence (AI) systems.
